Appendices provide additional resources on psychopharmacology, learning and behaviour modification, and

client handouts. An accompanying CD-ROM also offers electronic versions of handouts for easy use.

NEW! ANIMAL PHYSIOTHERAPY • AUSTRALIAN AUTHORS

9781405131957 • Catherine McGowan, Lesley Goff and Narelle Stubbs

AU \$108.50 • NZ \$127.65

Animal Physiotherapy is an essential reference guide for physiotherapists looking to apply the proven benefits of physiotherapy to the treatment of companion and performance animals. Animal Physiotherapy is a growing profession of physiotherapists who have broadened their expertise from the well-established human sphere to animals. The positive perception of physiotherapy in the human sphere, together with an increased

awareness of options and expertise available for animals has resulted in a strong demand for physiotherapy for animals.

For the physiotherapist this book provides essential applied background information on animal behaviour, nutrition, biomechanics and exercise physiology. For veterinarians and others who work with animals, the book reviews the scientific principles behind the practice of physiotherapy, and what it can achieve.

NEW! NUTRITION FOR VETERINARY TECHNICIANS AND NURSES

9780813829135 • Ann Wortinger

AU \$68.95 • NZ \$82

Nutrition is an area of veterinary medicine in which technicians and nurses can play an active role. To do so requires an understanding of basic digestion, nutrient use by the body and how food affects patients throughout their lives.

Nutrition for Veterinary Technicians and Nurses serves an introduction to the fundamentals of nutrition and also a guide to monitoring the nutritional needs of patients in daily practice. Students will benefit from the clear and consistent

approach to basic principles of nutrition. Practicing technicians and nurses will appreciate the practical applications and techniques for managing the nutritional needs of both sick and healthy patients and guidance for educating clients. Focusing on the unique interests of technicians and nurses, the book is not only relevant and technical but also understandable and usable.

NEW! VETERINARY MEDICAL TEAM HANDBOOK

9780781757591 • Andrew Rosenfeld

AU \$165 • NZ \$194

Veterinary medicine is a dynamic field allowing team members growth in every aspect of the science and profession. In a single day, a team member may be involved in administrative, emergency and critical care, internal medicine, surgical and radiological teams. With increasing expectations of quality care and technology, a team member's knowledge and responsibilities are growing at an exponential rate.

The Veterinary Medical Team Handbook is designed as a training resource for veterinarians, technicians and staff. Coverage ranges from administrative tasks and client communication to common diseases, disorders and procedures. The aim is to increase the staff's ability to detect and manage health problems and to enable the team to be more effective communicators with each other and with clients.

FORTHCOMING! THE BSAVA TEXTBOOK OF VETERINARY NURSING

9780905214894 • Dick Lane, Barbara Cooper and Lynn Turner

AU \$137.50 • NZ \$161.80

This new edition builds on the firm foundations laid by Jones's through the years as the mainstay of veterinary nursing training. A new editor and some new contributions bring a fresh eye to much of the content, which has been updated in line with the new RCVS syllabus. All chapters have been reviewed and information has been reorganised as required, to make the book as user-friendly as possible whilst still remaining authoritative.
