

KRUTEX Surgical Gowns

KRUTEX Premium Surgical Gown

- The KRUTEX Premium Surgical Gown is for use in procedures with a moderate risk of exposure
- Protection level AAMI 3*
- The gown is made from non-woven SMMMS, a technology providing a high level of barrier protection and air permeability. It has a strong resistance to tears and punctures
- With ultrasonic sealing the gown is free from threads, meaning less material waste and no risk of thread deterioration
- Double internal and external side ties on the waist for optimal fit
- Ribbed cuff for increased protection
- Waterproof and surgically folded
- Includes 2 hand towels (30 x 40 cm)
- Sold in individual packets

*AAMI Protection

AAMI provides standards for liquid barrier performance with ratings for different levels of gown protection from level 1-4.

AAMI LEVEL 2 Minimal to low fluid barrier protection. For use for only low-fluid, minimally invasive surgical procedures, lumps and bumps.

AAMI LEVEL 3 Moderate fluid barrier protection. Used for the widest range of surgical procedures, where moderate fluid protection is indicated.
